

Please join us for the

9th Canadian Barley Symposium & 24th BMBRI Triennial Meeting

February 24 & 25, 2020 in Winnipeg, MB

This joint conference will provide a key forum for members of the Canadian barley industry to exchange information, learn about new and emerging frontiers in barley science and discuss current issues, challenges and opportunities for enhancing barley quality and ensuring profitability and sustainability in the sector. The meeting is also an opportunity for networking amongst Canadian barley value chain stakeholders, including producers, seed growers, breeders, researchers, maltsters/brewers, marketers and members of the animal and human nutrition industries.
